Recommended Weekly Content Calendar

Day	Time	Content Type	Hashtag Strategy
Monday	8:00	Educational / Tech Tips	#tech, #learning + 1 niche tag
Wednesday	8:00	Behind-the-Scenes / Team	#team, #culture + 1 niche tag
Friday	8:00	Product Showcase / Reel	#product, #innovation + 1 niche tag
Sunday	8:00	Q&A; / Poll / Community	#community, #QandA + 1 niche tag

5 Strategies to Increase Engagement

1 ■ Post at Peak Times

Schedule posts at **8:00 on Thursday** for maximum algorithmic reach. The dataset confirms 8:00 as the dominant posting hour with the highest engagement rate (82.97%).

2 # Hashtag Optimisation

Use **3 hashtags per post** — the highest-engagement bucket in the data. Mix 1 broad tag with 2 niche community tags per post for optimal discovery reach.

3 ■ Content Diversification

Introduce **Reels (video)** alongside photo posts — Reels receive 2× organic reach vs static photos on Instagram. Rotate formats: Educational infographic → Behind-the-scenes → Product showcase.

4 ■ Comment Engagement Strategy

Close every caption with a **call-to-action question** to encourage comments. Reply to ALL comments within the first 60 minutes — this triggers the algorithm to push the post to more feeds.

5 ■ Activate the Follower Network

Identify top engaged followers (user IDs with highest comment counts) and send **shoutouts or collaboration invites**. Run a weekly **tag-a-friend giveaway** to accelerate organic follower growth.
